Hot Rod Garage in Boerne. Hot Rod Garage 35A Rust Lane Boerne, TX 830 336-4680. Owner is Maurice. Trust them. They do general mechanical repairs on classic cars, including 1955-2005 Tbirds! They know a lot about the Coil On Plug problems of the 2002-2005 Retro-Birds, having fixed that problem on Retrobirds.

They have recently contributed funds to us and their ad appears in our newsletters the last couple of years. Brian & Marilyn Carron found this shop and subsequently recommended them to Sam & David for their Babybirds and former Club members (Barr's). Excellent work and very, very clean shop.

Thunderbirds Southwest in La Grange. Information: (979) 249-4200. Website is <http://www.thunderbirdssouthwest.com/> Lance does repairs & restoration work for Tbird owners across the world. Lance Herrington, owner~Thunderbirds Southwest.

If you are looking for used OEM Tbird parts, or parts for any old car, you might consider making a trip to John's Salvage Company near Seguin. The local Pic-N-Pull no longer has a Classic Car section. Over the years, I have made trips to John's Salvage, and did again recently with Stan Andrews as we looked for parts for his 1978 Tbird and found them! This is a huge lot, with thousands of cars in it.

On the front left, you will find most of the 1958-1966 Tbirds. In the center section, we found 1977-1979 Tbirds to get parts off, not to mention many other FLM cars with similar parts on them. There are others scattered around this huge lot. You tell them what make and year of car you are looking for parts for and they will drive you to them. Expect a bumpy ride over dirt roads! They will have tools to take the parts off with, and do not charge for that work, just the parts. Here is their telephone number, 830-379-2092, and their website, including the map on how to get there. <https://www.johnssalvagecompany.net>
